CARE FOR WORK ENVIRONMENTS<sup>®</sup>

# Soap Factory<sup>®</sup> Sr.

The ultimate Soap Dispenser...created to last a lifetime

## THE SYSTEM DESIGNED TO GO BEYOND

The Soap Factory Sr. is so unique, its design is patented. The modern casing design is made of high quality ABS thermoplastic, which means the Soap Factory Sr. is prepared to stand up to the rigors of daily use.

## THE PUMP THAT WON'T LET YOU DOWN

The stainless-steel pump is the heart of the Soap Factory Sr. state-of-the-art design technology makes the pump mechanism virtually indestructible. No sign of wear was evident after rigorous testing for over 260,000 strokes, equal to 10 years of heavy, daily use.

## UNIVERSAL

The dispenser's clean, modern design complements any environment. It conveniently fits over the same space as most existing soap dispensers and also easily mounts to the popular industrial-style Bradley sink.

## EASY-TO-USE

State's 3-Liter hand cleaner refills snap into place with one swift motion and no mess. Unified construction allows for easy mounting. The push-lever allows for easy dispensing.

## LONG, TROUBLE-FREE LIFE

The vacuum stainless-steel pump system does not leak or drip and is designed to avoid clogging. It resists pitting and mechanical disfunction caused by abrasive hand cleaners.

## ECONOMICAL

No excess, no waste. Simply press and release. The four-position pump control allows the amount to be regulated, providing the right amount of hand cleaner for the job. And, because the pump extends to the bottom of the 3-Liter container, no hand cleaner is wasted.

## DIRECTIONS FOR USE

Firmly depress pump to dispense product, then release. Repeat if necessary.

Please review label and SDS for all product directions, precautions and first aid information.

## TECHNICAL DATA

**CASING:** high-quality ABS thermoplastic

**VACUUM PUMP:** stainless-steel

**COLOR:** white/teal
