

# WATER TREATMENT *Solutions*

## ACC<sup>®</sup>

**Aerosol Coil Cleaner**

- Non-acid, self-rinsing formula foams and penetrates into coils to remove dirt and build-up
- No scrubbing or rinsing necessary, allowing the unit to be returned to service quickly
- Pleasant citrus fragrance is different from harsh acid cleaners

CARE FOR WORK ENVIRONMENTS<sup>®</sup>

# ACC<sup>®</sup>

## Aerosol Coil Cleaner

### RESTORES EFFICIENCY

ACC is a powerful cleaner for air conditioning systems. Its special formula foams and penetrates deep into evaporator coil fins, to quickly and effortlessly remove dirt and debris that commonly accumulate in air conditioning systems. Dirt and debris rob the system of its efficiency and causing the unit to work harder, ultimately resulting in higher energy costs. ACC helps keep coil fins clean and maintains peak system efficiency.

### CONVENIENT & EFFECTIVE

Use ACC on all types of PTAC units (packaged terminal air conditioners) as well as commercial and roof top air conditioning systems. ACC is especially effective when rinsing is not possible or practical, or when acids and other harsh cleaners are not wanted. ACC's foaming action removes embedded dirt and residues from evaporator coils which are then rinsed away by the natural condensation from the unit once back in operation.

### DIRECTIONS FOR USE:

Please review label for all product directions, precautions and first aid information.

1. Turn air conditioning fan off.
2. Shake can well before using.
3. Remove matted material with fine brush or State Coil Fin Comb.
4. Hold can 12 inches from air intake side of coil.
5. Spray evenly over entire coil surface.
6. Turn fan on, no rinsing necessary.

Note: Safe on galvanized and stainless steel

### TECHNICAL DATA

**APPEARANCE:** Clear

**ODOR:** Citrus

**ACIDS PRESENT:** None

**pH:** 12 - 13

**STORAGE STABILITY:** 1 year minimum
