

Powdered Machine Detergent

- Conveniently packaged in individual bags
- Powerful cleaning agents
- Destaining power

Avance™ Powdered Machine Detergent is a high quality powdered detergent for machine dishwashing in restaurants, cafeterias, and other

institutional food service operations.

This product is formulated with a high quality combination of alkalis, water conditioning agents, emulsifiers and surfactants for superb results in a single dishwashing pass. Fortified with the destaining power of chlorine for brighter coffee cups and plastic ware. Contains no caustic soda.

Powdered Machine Detergent

directions

For normal dishwashing operations, use ½ cup of product per washload. Additional detergent may be required for areas with very hard water or heavy soil loads. If dishmachine is operating continuously, add ½ cup approximately every ½ hour of operation. For best results, presoak flatware to soften food soils. Use soft water and keep wash water temperatures above 140°F. Never mix this product in anything but water.

Please review label and MSDS for all product directions, precautions and first aid information before using this product.
