

WATER TREATMENT *Solutions*

STA-CLEAN® BIO PAN TABS

CONTROLLED RELEASE BIOLOGICAL GROWTH INHIBITOR

- Prevents bio growth in condensate pans and eliminates odors
- Opens clogged condensate drains
- Simple to use; Lasts three months or more
- Built-in filter pad meters product release for better control

CARE FOR WORK ENVIRONMENTS®

STA-CLEAN® BIO PAN TABS

CONTROLLED RELEASE BIOLOGICAL GROWTH INHIBITOR

Sta-Clean® Bio Pan Tabs are safe and easy-to-use on air conditioning and refrigeration condensate pans to control bioactivity and keep drains free-flowing.

HOW DO THEY WORK

Each tab is encased in a weighted plastic safety enclosure to minimize exposure. The tabs slowly release a bio control agent that will effectively eliminate algae, mold, slime, and fungus. They not only control bacterial growth, but they also eliminate unpleasant water odors without noxious fumes.

Also effective against controlling the growth of Legionnaires Disease causing bacteria.

Each tab will treat up to five tons of refrigeration. Tabs are packed 12 to a case and are easy-to-use by simply placing them in the condensate drain pan. Tabs are weighted to prevent movement once placed and contain an integral filter pad to slowly release active ingredients assuring long life.

For larger systems, use Sta-Clean Bio Pan Tabs large.

DIRECTIONS FOR USE:

1. Do not use in: humidifiers, humidifier sections of air conditioning systems, or evaporative coolers.
2. Clean condensate pan and drain before installing. For best results, clean refrigeration coils and drip pan with State Industrial Products Coil Doctor™.
3. Place unit in pan, pad side down.
4. In pans with drain connections, place unit under the cooling coils in the middle of pan length.
5. Unit must be in contact with condensate.
6. Sta-Clean Bio Pan Tabs are designed and approved for use in drain pans of air conditioning systems and refrigeration systems.

TECHNICAL DATA:

APPEARANCE: red plastic encased tab

ACTIVE INGREDIENTS:

Alkyl (60% C14, 30% C16, 5% C12, % C18) Dimethyl Benzyl Ammonium Chloride – 20%

Alkyl (68% C12, 32% C14) Dimethyl EthylBenzyl Ammonium Chloride - 20%

INERT INGREDIENTS: 60%

EPA Registration #: 33427-4-70799

SIZE: ¾ oz. each (large tabs 2-1/8 oz. each)

SUGGESTED USAGE:

Small Tabs: one tab per 5 tons every 3 months

Large Tabs: one tab per 15 tons every 3 months

PACKAGING

124360
124323

Small 12 Tablets/CS
Large 6 Tablets/CS
