- Safe on finished floors and other washable surfaces
- Balanced blend of surfactants, sequestrants and synergistic detergents provide superior cleaning
- Contains no harsh soaps, acids, alkalis or ammonia
- Concentrated for economical performance

CARE FOR WORK ENVIRONMENTS®

KLEEN-ALL™

Neutral Cleaner

DESCRIPTION

Kleen-All cuts through troublesome soil and grease. Rinsing after application is often unnecessary, saving time. The unique mixture of surfactants, sequestrants and synergistic detergents allows Kleen-All to maintain waxed and finished floor surfaces with ease.

SAFE ON FLOOR FINISHES (and other washable surfaces)

Kleen-All is formulated for use on finished floor surfaces. It is powerful enough to cut through built-up soil, yet gentle enough to be used on sensitive surfaces. Kleen-All will not attack, yellow or dissolve floor finishes.

DEEP CLEANS

Kleen-All is a superior cleaning concentrate with high soil-cutting properties. Dirt is broken up into tiny particles and suspended in liquid until it is mopped away.

EASILY RINSED

Kleen-All does not require any complicated rinsing methods. Simply apply Kleen-All to the floor, let the chemical action do most of the work and detail with a clean, damp mop. Kleen-All leaves no soap film that will dull finishes.

ENVIRONMENTALLY SAFE

Kleen-All contains no harsh soaps, acids, alkalis or ammonia.

ECONOMICAL

Only a small amount of Kleen-All (one to four ounces per gallon of water, depending on condition of floor) is required for all your cleaning needs.

SPOT CLEANING

Fill a quart spray bottle with diluted cleaner using our One Solution™ dilution system. One part Kleen-All to 42 parts water (3 oz. per gallon) makes an ideal spot cleaner for floors, walls, desks, cabinets and woodwork.

DIRECTIONS FOR USE

For light cleaning: dilute one oz. per gallon of water

For normal cleaning: dilute two oz. per gallon of water

For heavy cleaning: dilute four oz. per gallon of water

Please review the label and SDS for all product directions, precautions and first aid information.

TECHNICAL DATA

APPEARANCE: orange liquid

ODOR: mild floral fragrance

VISCOSITY: >75 cps

WEIGHT PER GALLON: 8.7 lbs

pH: 8.5 - 10.0

STABILITY: not harmed by freezing

FLASH POINT: >200°F

SHELF LIFE: two years
